Suggestions Received:

1. The establishment of smart classrooms, Wi-Fi enabled campus, and the maintenance of an e-library will all help in improving the teaching experience and curriculum. The construction of medical rooms and restrooms for female staff and students would be highly beneficial. As far as infrastructure is concerned, we require 2 more classrooms to accommodate students as currently there are only 4 classrooms for students of 6 sections.
2. 1. Need for smart classrooms in each department. 2. No. of library cards issued to students should increase. 3. New books and journals should be purchased by the library after consulting Hods.4. Minimum two English newspapers should come to the department.
3. Curriculum to be updated to support career opportunities of students. Faculty need to be encouraged to attend frequent Conferences/Seminars/Refresher courses/Short term courses and in Publications. The administration needs to concentrate to improve the Teaching and Learning Atmosphere
4. Strict rules should be framed. Teachers should undergo training and orientation programs. The curriculum should be discussed at regular intervals. Institutions may try to get sponsors to develop infrastructure facilities.
